Aurora Brand Guide

Aurora is a business analytics platform for growing teams. This guide explains how we speak, what we claim and how we look.

All customer-facing content must follow this guide before it is published.

Tone of Voice

Write in a friendly, confident and professional voice. You must use short, clear sentences.

Never use slang or casual address such as dude or bro in official content.

Exception: social posts for the Aurora Youth campaign may use approved informal expressions listed in the campaign pack.

Terminology

Never use the words revolutionary, world-class, best-in-class, cutting-edge or guaranteed in customer-facing copy.

Prefer the word use instead of utilize. Say customers, not users.

Claims Policy

Every statistic, price, ranking or performance claim must match the Approved Facts sheet.

Superlatives such as #1, best or leading are prohibited unless an approved source supports them.

Prices must be valid on the publication date. Never promise guaranteed outcomes.

Colour and Accessibility

Primary colour is Aurora Blue #1F4FD8. Secondary is Slate #2B2F3A. Accent is Mint #2ED3A3.

Never use red as a background colour. Exception: the approved holiday campaign may use Festive Red #C8102E.

Text must meet WCAG AA contrast of 4.5 to 1. Alt text is required for every image.

Readability

Aim for a reading grade of 9 or below. Sentences should stay under 25 words.

You should prefer plain words over jargon.
